3. Quarterly Performance	5
4. Leverage Profile	6
5. Market Performance	7
6. EPS	8
7. Financial Performance Quarterly	9
8. Unaudited Quarterly Results	10-11

- Markets remains cautious; consumer demand continues to be sluggish
- Increased competitive activities at regional and national level
- Increased trend of online shopping; significant growth in e-commerce
- Unclear tax environment due to GST non-finalization
- Benign input prices

From Management's Desk

Commenting on the results and performance, **Mr. Ramesh Kumar Dua, Managing Director** said:

It is my pleasure to announce the Financial Results for Q1 FY17. The Company has achieved a total revenue of INR 433.75 Crores, EBITDA of INR 70.53 Crores and PAT of INR 36.24 Crores in the quarter.

Q1 saw a lower-than-expected topline on account of general market slowdown and weak economic conditions. However, despite a lower topline, your company has been able to maintain a healthy profit on account of benefits from raw material prices, internal efficiencies and cost rationalization.

We are confident of achieving a good topline growth in Q2. We continue to remain focused on the twin pillars of volume growth and premiumization, and are planning to increase our efforts towards brand building, distribution and developing new channels such as e-commerce and modern trade.

We are focussing to establish a direct connect with retailers to understand their concerns and getting them addressed through our channel partners. We are also working hard to capture the potential of under-penetrated markets and to increase our distribution reach. We have increased our efforts to understand consumer needs through market research and are fine-tuning our product portfolio and launch strategy accordingly. We are working towards upgrading our design capabilities in order to keep delighting our consumers with new and innovative products. We continue to concentrate on manufacturing and supply chain processes for effective cost control and improved service levels.

I am confident that these interventions will help in reversing the trend of the last quarter and help us to build a solid foundation for sustainable growth for remaining quarters of this fiscal.

Quarterly Performance

Financial Performance
